## EXERCISE #3B

On a graph page, enter  $(x-1)(x-3)$   
in  $f1(x)$

press the down arrow

enter  $x^2-4x+3$  in  $f2(x)$

press enter

Press <ctrl> then press <T> to bring up a table

If you have difficulty reading all three columns in this view, press <ctrl> and then press <6>

The table is now on page 1.2
