

**Exercise #3**

To add a graph page press ctrl then doc and choose Add Graphs or click on the graph icon on the homepage.

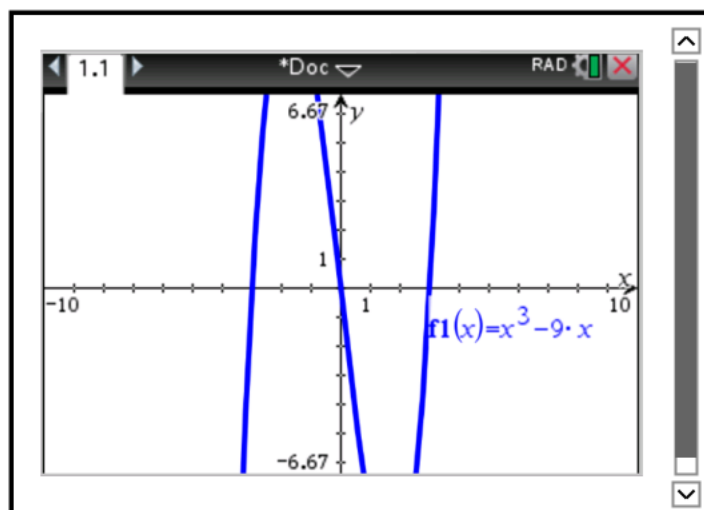

Type  $x^3 - 9x$  into the graph entry line.

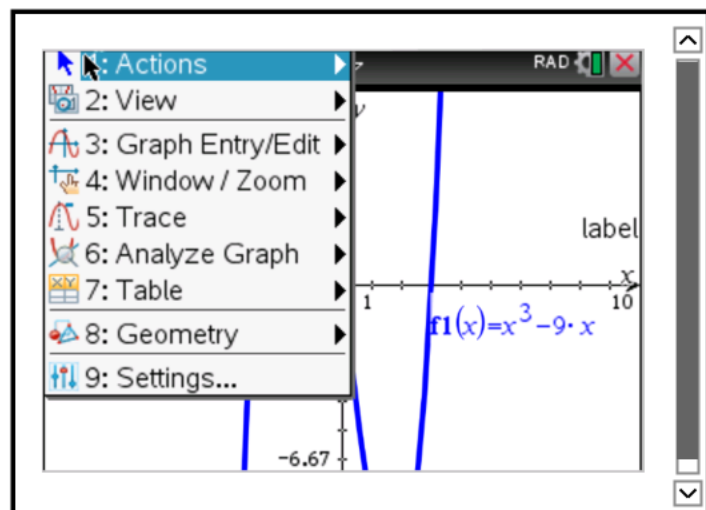

(Note: to do a 3 as an exponent, use the  key next to the  key. After typing the 3, make sure you right arrow out of the exponent block.)

Press enter.

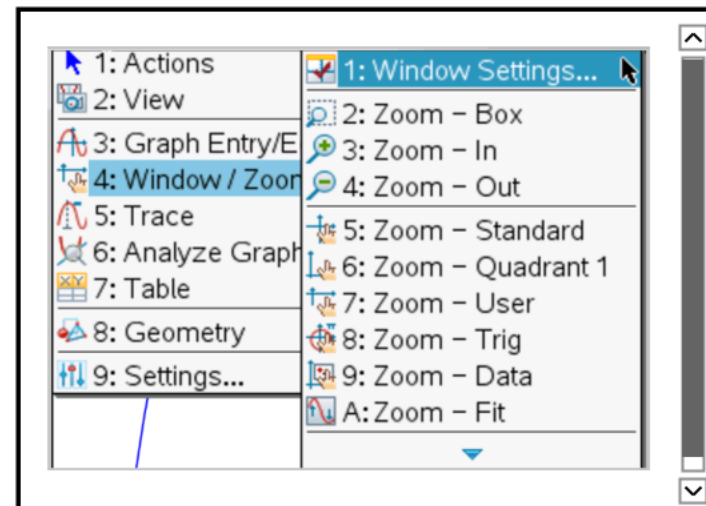

To adjust the window, press menu.

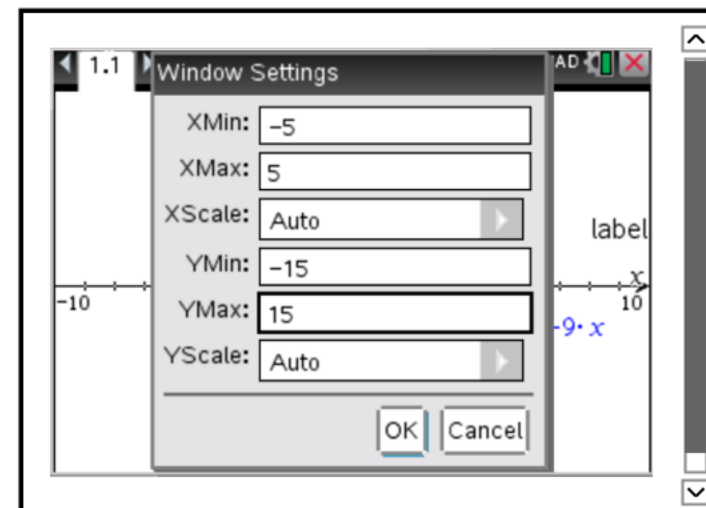

Choose Window/Zoom.

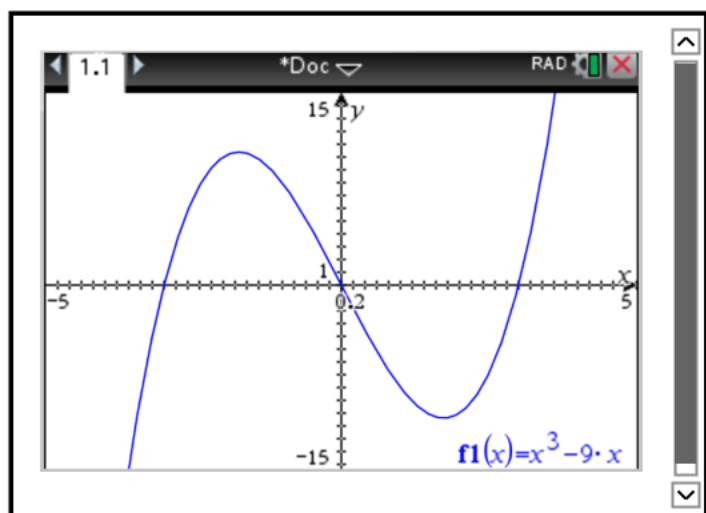

Choose Window Settings.

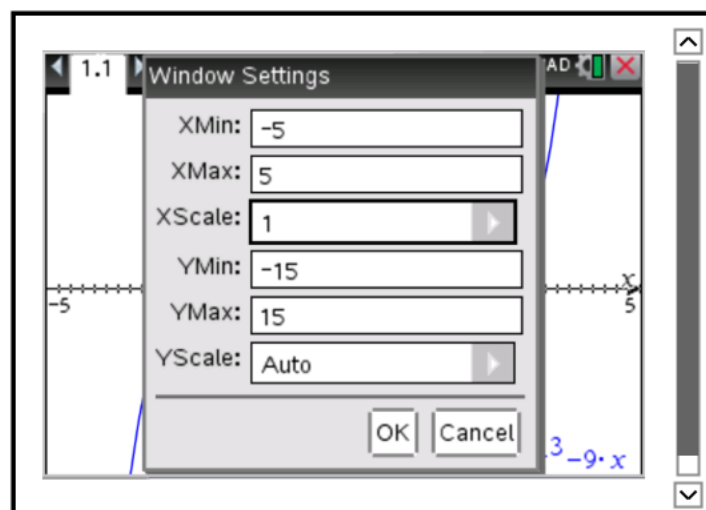

Adjust the window appropriately using the tab button to go from box to box.

Click OK

Reset the scale on the x-axis by going back into window settings and changing the x-scale to 1.

Click on OK
