

**<Name of problem>**

Enter your data on a Lists and Spreadsheets page.

	A time	B speed	C
=			
1	0	0	
2	2	25	

A1 0

Create a scatterplot and a line of best fit on a Data and Statistics page.

Once you have created the line of best fit, you can create a residual plot. Press menu and follow these prompts

Analyze

Residuals

Show Residuals Plot

The residuals plot will be shown on the same screen as the scatterplot.
